

## ABSTRACT SUBMISSION GUIDELINES

The 10th International Kimberlite Conference will be adopting the pattern of 8th International Kimberlite Conference regarding abstracts and their publications. Following are the themes under which abstract can be submitted.

1. Origin, evolution and emplacement of kimberlites and related rocks
2. Petrology and geochemistry of metasomatised lithospheric mantle magmas
3. Diamond Exploration
4. Cratonic Roots
5. Diamonds
6. Diamond Mining and sustainable developments
7. Policies and governance of diamond exploration

Following three types of abstract submissions are envisaged.

1. Preliminary Short Abstract: These are the basis for acceptance of the contribution for oral or poster presentation (but not for publication).
2. Final Short Abstract: Minor modifications of the Preliminary Short Abstract, such as typos or grammar, are allowed; however changes to scientific content are not permitted. Final Short Abstracts will be posted on the web page prior to the conference.
3. Long Abstract: These are for distribution to delegates in CD ROM/Memory stick.

**When submitting abstracts please follow the guidelines carefully**
